- ✓ Braided 1.8 m USB-A cable and optical red-laser tracking for stable performance on most surfaces.
- ✓ Multi-colour illumination and a two-year warranty suited to office environments.

Product description

Why choose this wired mouse?

Voxicon WIRED MOUSE GR650 combines high-precision optical tracking with six adjustable resolution modes up to 6400 dpi, an ergonomic right-hand shape and multi-colour illumination to support reliable, all-day office work. The wired USB-A connection and braided 1.8 m cable deliver a stable link without recharging, while the integrated thumb rest and contoured top reduce wrist strain during extended use.

GR650 in short:

- Right-hand ergonomic form with an integrated thumb rest for comfortable long sessions.
- Six sensitivity modes up to 6400 dpi for tasks from detailed editing to fast navigation.
- Seven-button layout and horizontal scrolling to speed up work across spreadsheets and applications.
- Braided 1.8 m USB-A cable and optical red-laser tracking for stable performance on most surfaces.
- Multi-colour illumination and a two-year warranty suited to office environments.

Ergonomic design for prolonged use

The GR650 is shaped for right-hand users with a raised profile and a built-in thumb rest that support a natural hand posture. The contoured top guides hand placement to reduce fatigue during repetitive tasks and long shifts at the desk.

Precision and navigation

Voxicon WIRED MOUSE GR650 offers six movement resolution settings, letting you switch between fine control and faster pointer speed as the task requires. A dedicated DPI control and a single scroll wheel with horizontal scrolling make it easier to navigate wide spreadsheets, timelines and multi-window workflows.

Built to last in everyday office settings

The braided cable and wired USB-A connection give you a reliable, low-latency link without batteries or pairing. The optical sensor performs consistently across common desk surfaces, while multi-colour illumination provides subtle visual feedback. A two-year warranty covers typical business use.

Technical Specification Matrix
