- ✓ Drop protection rated up to 2 meters for everyday impact resistance
- ✓ Raised camera lip keeps lenses off flat surfaces
- ✓ Matte black soft-touch finish reduces fingerprints and improves grip
- ✓ Accurate cutouts for buttons and ports, compatible with wireless charging

Product description

Why choose this cover?

Spectrum Solid Drop Safe Cirafon provides slim, practical protection for iPhone 14 Pro. The thermoplastic polyurethane construction absorbs impacts and improves grip, while a raised camera lip shields lenses. The matte black finish resists fingerprints and keeps a clean appearance. The precise fit preserves access to buttons and allows wireless charging without removing the cover.

Spectrum Solid Drop Safe in short:

- Slim TPU cover designed for iPhone 14 Pro, combining protection and a low profile
- Drop protection rated up to 2 meters for everyday impact resistance
- Raised camera lip keeps lenses off flat surfaces
- Matte black soft-touch finish reduces fingerprints and improves grip
- Accurate cutouts for buttons and ports, compatible with wireless charging

Product details

Spectrum Solid Drop Safe from Cirafon uses flexible TPU to absorb shocks and protect the edges and corners of your iPhone 14 Pro. The form-fitting design keeps the phone slim while the raised bezel protects the camera array. Cutouts and button covers are precisely placed to maintain tactile response and port access. The matte surface provides a comfortable grip and stays looking neat during daily use.
