

Toner Magenta 216A 850 Pages - W2413A

Data sheet

Summary

- ✓ Produces consistent magenta colour for routine documents, presentations, and reports.
- ✓ 850-page yield reduces interruptions and lowers the frequency of replacements.
- ✓ Compatible with HP printers, designed to work with standard HP models.
- ✓ Supplied as a single pack, easy to store and replace when needed.
- ✓ Consideration: not suitable for non-HP printers and may require professional setup in high-demand environments.

Product description

Why choose this toner cartridge?

Gilford Toner Magenta 216A 850 Pages - W2413A delivers reliable magenta output with a high 850-page yield, helping you reduce cartridge changes and keep print workflows running. As a compatible toner for HP printers, it offers consistent colour reproduction and lower supply costs for everyday office printing and colour reports.

Toner Magenta 216A 850 Pages - W2413A in short:

- Produces consistent magenta colour for routine documents, presentations, and reports.
- 850-page yield reduces interruptions and lowers the frequency of replacements.
- Compatible with HP printers, designed to work with standard HP models.
- Supplied as a single pack, easy to store and replace when needed.
- Consideration: not suitable for non-HP printers and may require professional setup in high-demand environments.

Product details

This compatible magenta cartridge is supplied as a single pack and includes transport protection that must be removed before installation. It is intended for regular office use where steady colour quality and fewer cartridge swaps help maintain productivity. Use with supported HP devices to ensure expected performance and reliable print output.
