

Laptop Riser Aluminium Silver

Data sheet

Summary

- ✓ Adjustable height and angle, with a range from 29 to 330 mm, so you can match screen position to your posture.
- ✓ Stable aluminium construction that weighs 900 g, making the riser easy to reposition or pack for travel.
- ✓ Open cutouts and raised platform improve ventilation to help keep laptop temperatures lower under load.
- ✓ Non-slip pads on the platform and base secure your laptop and protect desk surfaces.
- ✓ Check your laptop weight and overall size, as larger or very heavy laptops may exceed typical limits for this type of riser.

Product description

Why choose this laptop riser?

Prokord Laptop Riser Aluminium Silver raises your laptop to a more comfortable viewing height while improving airflow and desk organization. The aluminium build combines stability with low weight, so you can move it between workspaces easily. It helps reduce neck strain and supports cooler operation during extended sessions.

Prokord Laptop Riser Aluminium Silver in short:

- Adjustable height and angle, with a range from 29 to 330 mm, so you can match screen position to your posture.
- Stable aluminium construction that weighs 900 g, making the riser easy to reposition or pack for travel.
- Open cutouts and raised platform improve ventilation to help keep laptop temperatures lower under load.
- Non-slip pads on the platform and base secure your laptop and protect desk surfaces.
- Check your laptop weight and overall size, as larger or very heavy laptops may exceed typical limits for this type of riser.

Design and use

The Prokord Laptop Riser Aluminium Silver uses dual hinged arms to set height and angle quickly, and silicone pads keep your device steady. Strategic cutouts in the platform promote airflow to the laptop underside, which can help reduce fan activity during intensive tasks. The unit folds flat to about 44 mm for storage and travel and fits compact workspaces with a roughly 240 mm square footprint and 230 mm depth.
