

Prokord PUK-CAT6-1-BL

Data sheet

Core Specs

Connector 1	RJ-45
Connector 2	RJ-45
Cable standard	Cat 6
Cable shielding	U/UTP (UTP)
Cable length	1 m

Summary

- ✓ Bendable right-angle RJ45 ends ease connections in tight spaces
- ✓ Cat 6 U/UTP cable provides stable network performance
- ✓ 1m length suits patching between switches, routers and PCs
- ✓ Blue round cable simplifies identification and neat routing
- ✓ Unshielded connectors reduce cost for standard office networks

Product description

Why choose this Ethernet cable?

Prokord Ethernet Cat.6 Patch Cable Bendable RJ45 1M Blue gives you reliable Cat 6 performance in short patch runs, while the flexible, angled boots make it easy to fit into crowded racks and behind desks. The one-metre length and blue colour simplify neat cable routing and identification, helping reduce installation time and cabling errors.

Prokord Ethernet Cat.6 Patch Cable Bendable RJ45 1M Blue in short:

- Cat 6 performance for stable gigabit connections, suitable for switches, patch panels and desktop links.
- Angled, bendable RJ-45 boots reduce strain and save space behind devices with limited clearance.
- 1 m length and round cable shape for short, tidy patch connections.
- Blue cable for clear identification in organised cabling systems.
- Note: the cable is unshielded, so consider a shielded option if your environment has high electromagnetic interference.

Prokord Ethernet Cat.6 Patch Cable Bendable RJ45 1M Blue

This Prokord patch cable uses male-to-male RJ-45 connectors and a U/UTP unshielded construction, making it a straightforward choice for standard office and LAN setups. The bendable boots protect the connector latch and provide better routing at right angles, which helps prevent accidental unplugging and reduces stress on ports. Supplied as a single cable, it fits short runs between wall outlets, switches and workstations where space and neatness matter.
