

Prokord PUK-CAT6-1-WH

Data sheet

Core Specs

Connector 1	RJ-45
Connector 2	RJ-45
Cable standard	Cat 6
Cable shielding	U/UTP (UTP)
Cable length	1 m

Summary

- ✓ Flexible right-angle RJ45 plugs save space in tight rack and desk runs
- ✓ Cat6 performance delivers stable gigabit connections for daily use
- ✓ Bendable round cable reduces clutter and simplifies routing
- ✓ White finish blends into office setups for a neat, professional look
- ✓ UTP design minimizes interference in standard office environments

Product description

Why choose this Ethernet patch cable?

Prokord Ethernet Cat.6 Patch Cable Bendable Rj45 1M Wh gives reliable short-distance network connections with a flexible profile that helps keep installations tidy. The Cat6 standard supports common office and home network traffic, while the bendable white cable fits neatly into crowded racks and tight spaces for easier cable management and maintenance.

Prokord Ethernet Cat.6 Patch Cable Bendable Rj45 1M Wh in short:

- 1 meter, round white cable, ideal for short links between devices in racks or on desks.
- Bendable RJ-45 connectors reduce strain and allow neat routing in confined spaces.
- U/UTP (UTP) unshielded construction for standard Ethernet environments with low electromagnetic interference.
- Male-to-male RJ-45 connectors for straightforward patching between switches, patch panels, and devices.
- Not intended for long-distance runs or high-EMI installations.

Product details

This cable connects two RJ-45 ports with a 1 m lead that keeps pathways compact and organised. The bendable connector ends make it easier to route cables behind equipment and inside patch panels without kinking the cable. The unshielded Cat6 design delivers stable everyday performance for wired networks where shielding is not required, and the white finish blends into office or home environments.
