Product description

Why choose this Ethernet cable?

Prokord Ethernet Cat.6 Patch Cable Bendable Rj45 1M BI gives you a compact, reliable link for short-distance network connections. Its bendable, right-angled RJ-45 plugs and flexible round cable reduce strain and simplify routing in tight installations, helping you keep racks and workstations neat while maintaining consistent data transmission.

Prokord Ethernet Cat.6 Patch Cable Bendable Rj45 1M BI in short:

- Right-angled, bendable RJ-45 connectors for tight spaces and low-profile routing.
- Cat 6 U/UTP round cable, suited for standard local network connections.
- Black finish and slim design for discreet installations behind equipment.
- 1 m length, ideal for short patch runs but not for long cable runs.
- Supplied as a single cable for easy replacement or targeted use.

Product details

This patch cable connects two RJ-45 ports with male-to-male terminations, making it suitable for switches, routers, patch panels, and wall sockets in compact setups. The unshielded U/UTP construction works well in typical office and home environments where shielding is not required. The angled plugs and flexible jacket reduce connector strain and improve cable management in confined spaces. The single-piece packing lets you add or replace individual links as needed.
