

Prokord PUK-CAT6-8-B

Data sheet

Core Specs

Connector 1	RJ-45
Connector 2	RJ-45
Cable standard	Cat 6
Cable shielding	U/UTP (UTP)
Cable length	8 m

Summary

- ✓ Cat6 rated for stable gigabit performance in busy networks
- ✓ 8m length provides reach for desks, switches and patch panels
- ✓ Right-angle RJ45 plugs fit tight spaces, behind desks and racks
- ✓ Round, bendable UTP cable routes easily and keeps installations neat

Product description

Why choose this patch cable?

Prokord Ethernet Cat.6 Patch Cable Bendable Rj45 8M BI gives reliable indoor network connections with flexible routing and a low-profile plug design. It supports common high-speed LAN needs while keeping cable runs tidy. The bendable RJ-45 ends and round black jacket make installation behind desks and in racks simpler and reduce strain on connectors.

Ethernet Cat.6 Patch Cable Bendable Rj45 8M BI in short:

- Cat6 U/UTP cable suited for Gigabit Ethernet and typical PoE setups.
- Bendable, low-profile RJ-45 male-to-male connectors for tight spaces and neat cable runs.
- Round black cable that helps keep installations unobtrusive and organised.
- Single cable per pack for straightforward replacement or extension tasks.
- Consider that the fixed 8 m length and indoor-grade construction are not intended for harsh outdoor use.

About the cable

This Prokord cable connects switches, patch panels, computers, and other network devices with a simple plug-and-play approach. The unshielded Cat6 construction provides consistent performance for office networks and home setups. The molded, bend-friendly connector boots reduce strain and ease routing around furniture or inside cabinets. The connectors are unshielded, so plan installations accordingly where extra EMI protection is required.
