- ✓ Sturdy braided steel cable keeps a laptop secured to a fixed point, reducing theft risk in shared spaces.
- ✓ Multihead adapter set fits many common laptop lock slots, so you can use the same lock across different models.
- ✓ Includes two keys and three color-coded adapters for easy identification and quick use.
- ✓ Supplied as one compact unit for simple storage and fast deployment.
- ✓ Check compatibility with older or proprietary laptop lock systems before purchase.

Product description

Why choose this laptop lock?

Prokord Laptop Lock Multihead - Key is designed to safeguard your laptop with a single-piece locking mechanism and a black finish. It offers a practical balance of visible deterrence and everyday reliability, helping you protect devices in shared offices, hot desks, or public work areas while keeping deployment and use straightforward.

Laptop Lock Multihead - Key in short:

- Sturdy braided steel cable keeps a laptop secured to a fixed point, reducing theft risk in shared spaces.
- Multihead adapter set fits many common laptop lock slots, so you can use the same lock across different models.
- Includes two keys and three color-coded adapters for easy identification and quick use.
- Supplied as one compact unit for simple storage and fast deployment.
- Check compatibility with older or proprietary laptop lock systems before purchase.

Product details

The Prokord Laptop Lock Multihead - Key attaches around a fixed object and locks into your laptop's security slot using the matching adapter. You get a looped steel cable that stays out of the way when not in use, plus a set of adapters to match common lock fittings and two keys for convenient access control. The black finish gives a professional look while the straightforward design makes installation and daily use fast and predictable.
