

Prokord DPC-C14C131.8B

Data sheet

Core Specs

Cable length	1.8 m
Connector 1	C14
Connector 2	C13
Product colour	Black

Summary

- ✓ Reliable power connections with straight C14 to C13 couplers
- ✓ 1.8m length gives flexible placement while reducing cable clutter
- ✓ Black finish blends into professional racks and office environments
- ✓ Straight connectors improve cable management and secure fit
- ✓ Engineered for consistent performance to help reduce downtime

Product description

Why choose this power cable?

Prokord Power cable provides reliable power connectivity for IT equipment with straight C14 and C13 couplers. Its 1.8m length gives flexibility for rack and desktop placement, while the black finish keeps installations tidy. The robust connectors help maintain secure connections to reduce downtime and simplify everyday cable management.

Prokord Power cable in short:

- Straight C14 (female) to C13 (male) connectors for direct connection to servers, PDUs, UPS units, and desktops.
- 1.8m length offers flexible placement and easier routing in racks and office layouts.
- Black finish and straight form factors help keep cable runs neat and unobtrusive.
- Built for repeated use in data center and office environments.
- Consideration: not intended for outdoor industrial use without added protection, and may not suit ultra-high power devices beyond its rated capacity.

Product details

The cable uses straight C14 (female) and C13 (male) couplers to provide a secure mains connection between IT equipment and power distribution units. At 1.8m, it balances reach and tidiness, making it easier for you to position equipment without excess slack. The black jacket integrates with standard racks and desks, and the connector forms support straightforward routing to reduce strain and the risk of loose connections.
