Product description

Why choose these Bolts & nuts?

Prokord PRO-19-SET-10 screw/bolt 10 pc(s) M6 Bolts & nuts give you a simple, reliable fastening option for routine assembly and repair work. The steel construction and precise M6 threading help ensure secure, vibration-resistant connections, so you can reduce rework and keep IT cabinets, brackets, and equipment enclosures properly fastened.

PRO-19-SET-10 in short:

- Steel construction for everyday durability and repeated use.
- M6-threaded bolts with matching nuts, suitable for equipment enclosures and mounting brackets.
- Pack of 10, convenient for small repair jobs and maintenance tasks.
- Includes pan-head screws, cage-style nuts and washers for secure, easy installation.
- Not recommended for high-temperature or corrosive environments, and may not meet specialized heavy-duty requirements.

Product details

Prokord PRO-19-SET-10 is a compact fastening set designed for practical use in IT and general maintenance. The components work well for replacing lost fasteners, installing small brackets, or securing components inside enclosures. The M6 thread and included washers help align and lock parts with minimal effort, so you can complete routine service tasks efficiently.
