Product description

Why choose this networking cable?

Prokord UTP-62.0B delivers dependable Cat 6 performance in a compact, easy-to-use cable. It helps you keep desktop and patching areas neat while supporting stable network links. The low smoke zero halogen jacket improves safety in enclosed spaces and the flat design makes routing simple under desks and along walls, reducing clutter and installation time.

UTP-62.0B in short:

- Cat 6 cable standard for reliable high-speed Ethernet connections in office and small data closet setups.
- Flat profile for discreet routing under desks, along skirting boards, or inside cable trays.
- LSZH jacket reduces smoke and toxic emissions, suitable for public and confined spaces.
- RJ-45 male-to-male straight connectors, compatible with switches, routers, patch panels, and wall outlets.
- 2 m length is convenient for desktop-to-wall or switch-to-patch connections, note the flat shape may not suit some round conduits.

Product details

Prokord UTP-62.0B is a 2 m Cat 6 U/UTP (UTP) patch cable with copper conductors and straight RJ-45 connectors on both ends. The flat, black cable keeps runs tidy and is easier to tuck away than round cables. The LSZH jacket provides added safety where reduced smoke is required. Use this cable for everyday Ethernet patching and short-range device connections where a low-profile, durable link is needed.
