Product description

Why choose this power cable?

Prokord DPC-C142XC1306B helps you power two IEC C13 devices from a single C14 inlet, simplifying rack and test-bench setups. It reduces cable clutter and makes equipment changes faster. The short 0.6 m length keeps connections neat and close to your power source, while the black finish blends into standard server and network environments.

Product details

This compact splitter cable features a single C14 connector and two C13 outlets, making it useful when you need to feed two pieces of equipment from one IEC inlet. The 0.6 m length is practical for close-proximity connections and helps with tidy cable management. Molded connectors with strain relief give a secure fit and withstand routine handling. Use it for servers, network switches, UPS systems, and other equipment that accepts IEC C13 power inlets.
