Product description

Why choose this USB cable?

CF-AC-TPE-2.0-W Cirafon USB cable offers a straightforward, reliable link between USB-A hosts and USB-C devices. Its 1.3 m length gives flexibility for desk and mobile use. Use it to charge phones and accessories, or to sync files between older computers and modern devices, while keeping connections simple and dependable.

CF-AC-TPE-2.0-W in short:

- 1.3 m length, suitable for desk setups and everyday mobile use.
- USB-A to USB-C connection for charging and data syncing with phones, tablets, and peripherals.
- USB 2.0 compatibility for reliable charging and standard file transfers.
- White finish and molded connectors for a clean look and straightforward handling.
- Note the cable provides standard USB 2.0 speeds, so consider your transfer needs before purchase.

CF-AC-TPE-2.0-W details

The CF-AC-TPE-2.0-W is a plug-and-play cable with male USB-A and male USB-C connectors. It works with chargers, laptops, and devices that accept USB-C, making it useful for routine charging and transferring everyday files. The 1.3 m length strikes a balance between reach and tidy cable management, and the neutral white color fits most office and home environments.
