

Sync/Charge Cable 240W2m USB-C USB-C Black

Data sheet

Summary

- ✓ Supports USB Power Delivery up to 240W for charging high-power laptops and USB-C devices.
- ✓ USB-C to USB-C male connectors for direct connection to modern chargers and devices.
- ✓ 2 m length provides flexible placement of devices and easier access to wall outlets.
- ✓ USB 2.0 supports device syncing and charging, but data transfer is limited compared with USB 3.x.
- ✓ Black cable with molded strain reliefs for a neat, durable fit in office setups.

Product description

Why choose this USB-C cable?

Cirafon Sync/Charge Cable 240W combines high-power charging and basic data sync in a single USB-C to USB-C cable. With support for USB Power Delivery up to 240W and a 2 m length, it lets you place devices farther from outlets and charge power-hungry laptops reliably. The black finish and molded connectors suit professional environments.

Sync/Charge Cable 240W in short:

- Supports USB Power Delivery up to 240W for charging high-power laptops and USB-C devices.
- USB-C to USB-C male connectors for direct connection to modern chargers and devices.
- 2 m length provides flexible placement of devices and easier access to wall outlets.
- USB 2.0 supports device syncing and charging, but data transfer is limited compared with USB 3.x.
- Black cable with molded strain reliefs for a neat, durable fit in office setups.

Product details

Cirafon Sync/Charge Cable 240W is a 2 m black accessory with USB-C male connectors on both ends. It is designed primarily for reliable charging using USB Power Delivery up to 240W and for basic file synchronization at USB 2.0 speeds. The cable’s molded ends and strain relief help reduce wear from daily use and cable movement.
