

# Prokord DPC-SHUC502B

Data sheet

## Core Specs

|                |        |
|----------------|--------|
| Cable length   | 0.2 m  |
| Connector 1    | CEE7/7 |
| Connector 2    | C5     |
| Product colour | Black  |

## Summary

- ✓ 0.2 m length reduces cable clutter, ideal for close-range setups
- ✓ CEE7/7 to C5 connection provides secure contact with power bricks
- ✓ Straight male and female plugs ensure stable insertion and removal
- ✓ Neutral black finish blends into professional IT racks and desks
- ✓ Short reach limits placement, verify outlet proximity before purchase

# Product description

## Why choose this power cable?

Prokord DPC-SHUC502B is a short, durable mains lead that reduces cable clutter and keeps power connections neat where space is limited. It links standard European wall outlets to laptop and small device power bricks with straight connectors for reliable contact, and the neutral black finish blends into professional IT environments.

## DPC-SHUC502B in short:

- 0.2 m length, ideal for close-range connections and reducing excess cable.
- CEE7/7 male plug for compatibility with common European sockets.
- IEC C5 female coupler, suitable for many laptop and small equipment power supplies.
- Straight connector form factors for stable, easy insertion.
- Note: the short length limits reach, so confirm device and adapter placement before purchase.

## Product details

The Prokord DPC-SHUC502B connects a European mains outlet to devices that accept an IEC C5 inlet, making it suitable for laptop power adapters and similar equipment. At 0.2 m the cable keeps adapters close to the wall or power distribution unit, which helps prevent tangling and improves rack or desktop tidiness. Straight, well-fitting connectors provide secure contact and straightforward insertion, and the black finish keeps the cable discreet in professional IT setups.
