Product description

Privacy Filter – Optimal Privacy Protection for Screens

The Privacy Filter offers effective protection for both laptops and desktop monitors. With this filter, you ensure that your screen content is shielded from view, so that only people sitting directly in front of the screen can see what is being displayed. This privacy filter is ideal for protecting sensitive information in the workplace, at home, or in public places.

Fits Screens from 12.5” to 34” – Flexible Compatibility

Our privacy filters are designed to fit screens ranging from 12.5” to 34” diagonally. The exact dimensions of the visible surface of this filter are 612 x 384 mm, making it perfect for screens between 26” and 27”. Choose the right size to maximize protection and improve your work environment.

Easy Installation and Extra Protection against Scratches and Fingerprints

The filter is easy to install – simply hang it on your screen for quick and straightforward assembly. It is designed to be easily removable and reattachable, making it convenient to use as needed. Additionally, it provides extra protection against scratches and fingerprints, helping to extend the life of your screen and keep it in top condition.

Protect Your Screen with Our Privacy Filter – Optimal Security and Functionality

With our Privacy Filter, you not only get a tool to safeguard your privacy but also an accessory that keeps your screen in excellent condition. Explore our range and choose the privacy filter that best suits your screen size and protection needs.
