

Duster Daan Model 1

Data sheet

Summary

- ✓ Use the dust blower mode to remove dust from keyboards, fans, vents and PC cases
- ✓ Switch to vacuum mode with the filter and collection cup to pick up dust, crumbs and debris directly

Product description

PROKORD DUSTER DAAN MODEL 1 – Vacuum Cleaner and Dust Blower in One

Need a compact cleaning tool that can handle both dust removal and small messes? PROKORD DUSTER DAAN MODEL 1 is a practical 2-in-1 device that works as both a dust blower and a portable vacuum cleaner. It's ideal for keeping electronics, desks and hard-to-reach areas clean without dragging out a full-size vacuum.

With a rechargeable 7500 mAh battery, it's easy to use anywhere — at home, in the office, or on the go.

Blow or vacuum – depending on the job

Unlike standard air dusters, this model lets you choose how you want to clean:

- Use the dust blower mode to remove dust from keyboards, fans, vents and PC cases
- Switch to vacuum mode with the filter and collection cup to pick up dust, crumbs and debris directly

This makes cleaning easier and helps avoid blowing dust around the room.

Three speed settings

Adjust the power to match the task with three speed levels:

- 50,000 RPM
- 70,000 RPM
- 90,000 RPM

Suction power goes up to 12,000 Pa depending on the setting.

Battery life and capacity

The built-in battery is designed for everyday cleaning sessions:

- up to 30 minutes on low speed
- up to 20 minutes on medium speed
- up to 15 minutes on high speed

Dust container / vacuum capacity: 156 ml.

Great for

- cleaning delicate electronics such as computers, consoles and routers
- keeping desks and work areas free from dust and crumbs
- reaching tight corners and small spaces where larger vacuums struggle
- inflating air mattresses and pool toys using the right nozzle

A reusable alternative to disposable air sprays

PROKORD DUSTER DAAN MODEL 1 is a smart choice if you want a rechargeable tool you can use again and again. With both blowing and vacuuming in one device, it's flexible, practical and especially useful for cleaning around electronics.

Technical Specification Matrix

Header

Manufacturer	Prokord
Model	PC-16B

Features

Material	Acrylonitrile butadiene styrene (ABS), Polycarbonate (PC)
Product colour	Black
Output airflow	8 - 12 kPa
Strong wind power up to	90000 r/min
On/off button	Yes

Power

Input power	15 W
Current	3 A
Charging time	2.5 h
Operating time	0.5 h

Weight & dimensions

Height	210 mm
Depth	98 mm
Width	68 mm

Technical details

Warranty period	2 year(s)
-----------------	-----------

Battery

Battery life (max)	0.5 h
Battery recharge time	2.5 h
Rechargeable battery	Yes
