Product description

CIRAFON GLASS PLUS - PREMIUM SCREEN PROTECTOR FOR TABLETS

Give your tablet the best protection with Cirafon Glass Plus, a high-quality screen protector that combines durability and functionality. This tempered glass is designed to provide optimal touch sensitivity while resisting daily wear and tear.

Crystal clear and responsive

Cirafon Glass Plus offers a crystal clear surface that preserves the sharpness and feel of the original screen. With a hardness of 9H, it effectively protects against scratches and damage without affecting touch functionality. Experience the same smooth and responsive operation as without screen protection.

Easy to Apply and Perfect Fit

This screen protector is easy to apply and provides a bubble-free surface, so you barely notice it's there. Unlike plastic protectors, the glass provides a more natural feel and a harder surface that's easier to keep clean from fingerprints and smudges.

Maximum Protection for Your Tablet

A single drop can cause costly and time-consuming damage to your tablet's display. With Cirafon Glass Plus, you get a carefully tested and selected screen protector that provides a durable surface without affecting the sensitivity of the screen. It's the perfect solution to keep your tablet in top condition.

The benefits of Glass over Plastic

Glass provides a superior feel and impact resistance compared to plastic. It is easier to apply and provides a hard surface without air bubbles, which is often a problem with plastic protectors. With Cirafon Glass Plus, you keep the same touch features as without a screen protector, while providing robust protection against everyday wear and tear.

Reduces smudges and fingerprints

Cirafon Glass Plus is treated to reduce smudges and fingerprints, keeping your screen looking clean and clear for longer. The dirt-repellent surface makes it easy to keep your screen free of dirt and oils, improving both appearance and functionality.

Durable and Long-lasting

With Cirafon Glass Plus, you get a screen protector that's built to last. The tempered glass is designed to withstand daily wear and tear and maintain its clarity and functionality over time. Invest in a screen protector that provides long-lasting protection and preserves your tablet's value.

To complete your protection, check out Cirafon's range of tablet cases.

Technical Specification Matrix
