

Aegis Shockproof MagSafe Phone Case (MIL-STD-810H Certified)iPhone 15

Data sheet

Summary

- ✓ 1.2m Drop Protection (MIL-STD-810H Certified): Built to withstand drops from up to 1.2 meters, tested to military standard by SGS.
- ✓ MagSafe Compatibility: Supports MagSafe technology, making it easy to use with compatible chargers and accessories.
- ✓ Double Layer Design: A tough polycarbonate outer shell combined with a soft TPU inner layer protects your phone from scratches, bumps, and daily wear.
- ✓ Raised Edges for Extra Protection: A 0.3mm raised edge around the camera and a 0.2mm raised edge around the screen help prevent scratches and damage to sensitive areas.
- ✓ Elegant and Thin Design: Delivers strong protection in a slim, sleek profile that complements the look and feel of your phone.

Product description

Cirafon Aegis Mobile Case – Black

Protect your phone with the Cirafon Aegis phone case – a perfect combination of style and security. This premium case offers reliable protection with its unique design, which includes both a hard polycarbonate shell and a soft TPU inner shell. With Cirafon Aegis, you get a sleek solution that effectively protects your device without compromising on appearance or functionality.

Key Features

- 1.2m Drop Protection (MIL-STD-810H Certified): Built to withstand drops from up to 1.2 meters, tested to military standard by SGS.
- MagSafe Compatibility: Supports MagSafe technology, making it easy to use with compatible chargers and accessories.
- Double Layer Design: A tough polycarbonate outer shell combined with a soft TPU inner layer protects your phone from scratches, bumps, and daily wear.
- Raised Edges for Extra Protection: A 0.3mm raised edge around the camera and a 0.2mm raised edge around the screen help prevent scratches and damage to sensitive areas.
- Elegant and Thin Design: Delivers strong protection in a slim, sleek profile that complements the look and feel of your phone.

Tested to Military Standards

The Cirafon Aegis case is certified to MIL-STD-810H standards. In an independent drop test carried out by SGS using Method 516.8 (Procedure IV), the case passed 10 drops from a height of 1.2 meters on multiple sides and edges without any visible damage to the device or the case. This confirms its durability and shock resistance in even demanding environments.
