Product description

Why choose this TV?

VXV732UA2 32" HD LED Android TV + Chromecast Voxicon offers a compact FHD display with HDR10 and an Android 11 smart platform. It delivers clear images and easy access to streaming apps, while built-in Chromecast and voice control simplify presentations and daily use. The set of ports and wirelessly connectivity options make setup fast and flexible for small offices, meeting rooms, or home use.

VXV732UA2 32" HD LED Android TV + Chromecast in short:

- 32-inch FHD display with HDR10, suited for small meeting rooms, reception areas, or home offices.
- Android 11 with Google Play and popular apps like Netflix, YouTube, Apple TV, HBO, Amazon Prime Video, and Disney+.
- Built-in Chromecast and Google Assistant support for easy casting and voice control during presentations.
- Multiple inputs including 3 HDMI ports, VGA, optical audio out, headphone jack, Ethernet and Wi-Fi for flexible connectivity.
- Stereo speakers with 12 W RMS, adequate for speech and video; consider external audio for larger spaces.

Picture quality and viewing

The VXV732UA2 pairs a 1920 x 1080 resolution with HDR10 and direct LED backlighting to improve contrast and colour depth. That combination keeps text and on-screen interfaces crisp and makes streamed video look more detailed. With 250 cd/m² brightness, the screen remains usable in rooms with moderate ambient light.

Smart features and apps

This TV runs Android 11 and gives you access to Google Play, so you can install business and entertainment apps directly. Preinstalled streaming services and the built-in Chromecast let you cast presentations, documents, and media from laptops and mobile devices. Voice control and Google Assistant support reduce the need to navigate menus with a remote during meetings.

Connectivity and sound

A broad selection of ports supports common AV setups, including three HDMI inputs for set-top boxes or media players, VGA for older PCs, optical audio for sound systems, and an Ethernet port for stable network access. The two integrated speakers provide clear dialogue for video calls and presentations, and the CI+ slot and RF input add compatibility for broadcast modules.

Technical Specification Matrix

Header

Manufacturer	Voxicon
--------------	---------

Display

Screen size	32 "
HD type	FHD
Display resolution	1920 × 1080 pixels
Display technology	LCD
Screen shape	Flat
LED backlight	Yes
LED backlighting type	Direct-LED
Native aspect ratio	16:9
Supported video modes	1080p
Display brightness	250 cd/m²

TV tuner

Tuner type	Digital
Digital signal format system	DVB-T2

Audio

Number of speakers	2
RMS rated power	12 W
