Product description

Cirafon USB-C to USB-C Silicone Cable – 240W, 20Gbps

High-performance cable for charging, data, and video

The Cirafon USB-C to USB-C Silicone Cable is designed for professional users with high demands on power, transfer speed, and durability. Supporting up to 240W (EPR, 48V/5A), this cable charges everything from high-powered laptops to USB-C accessories with ease.

With data transfer speeds up to 20 Gbps and support for DisplayPort 1.4 Alt Mode, it also delivers 4K/60Hz video output – ideal for connecting to external monitors or docking stations. The soft silicone construction keeps the cable flexible and tangle-free, while the TPE overmolding adds extra protection against wear and tear.

Available in both black and white to match your workspace and devices.
