

VXDK-AM150 Wired In-Ear Headset, 3.5 mm, Metallic Stereo

Data sheet

Summary

- ✓ Balanced and dynamic 10 mm drivers for clear mids and a controlled low end, suitable for voice and music.
- ✓ Inline external control with buttons for Volume +, Volume -, and answer/end call, making call handling simple.
- ✓ Wired 1.2 m cable with 3.5 mm connector for broad device compatibility.
- ✓ Break- and drop-resistant construction and a reinforced connector area for everyday use.
- ✓ Consideration: this is a wired headset and requires a 3.5 mm audio port.

Product description

Why choose this headset?

Voxicon VXDK-AM150 headphones/headset Wired In-ear Calls/Music Metallic deliver reliable wired audio for everyday calls and music. The inline control unit lets you handle volume and calls without touching your device. A closed, in-ear design with 10 mm drivers provides focused sound and the metallic finish offers a durable, professional appearance.

VXDK-AM150 headphones/headset Wired In-ear Calls/Music Metallic in short:

- Balanced and dynamic 10 mm drivers for clear mids and a controlled low end, suitable for voice and music.
- Inline external control with buttons for Volume +, Volume -, and answer/end call, making call handling simple.
- Wired 1.2 m cable with 3.5 mm connector for broad device compatibility.
- Break- and drop-resistant construction and a reinforced connector area for everyday use.
- Consideration: this is a wired headset and requires a 3.5 mm audio port.

Sound and performance

The VXDK-AM150 pairs a balanced plus dynamic driver design with a closed acoustic system to keep audio focused and limit sound leakage. The 20 to 20,000 Hz frequency range covers the standard audible spectrum so speech and music come through clearly. With 105 dB sensitivity and 16 ohm impedance, the headphones are easy to drive from smartphones, tablets, and laptops.

Calls and controls

An in-line microphone and an external control unit put three buttons on the cable so you can adjust volume or answer and end calls without reaching for your device. The 3.5 mm connectivity supports wide device compatibility, making the headset practical for desk work, commuting, and virtual meetings.

Design and durability

The metallic housings and black cable present a professional look that suits office and field use. A 1.2 m cable gives you room to move while connected, and a reinforced connector area helps resist daily wear. Soft intraaural tips provide a secure fit and help reduce outside noise during extended use.

Technical Specification Matrix

Header

Manufacturer	Voxicon
--------------	---------

Performance

Product type	Headset
--------------	---------

Wearing style	In-ear
Recommended usage	Calls, Music
Headset type	Stereo
Product colour	Metallic
Operating keys	Answer/end call, Volume -, Volume +
Control type	Buttons
Protection features	Break resistant, Drop resistant
Cable length	1.2 m
Volume control	Button
Sound pressure level (max)	105 dB
Control unit type	External control unit
Cable colour	Black

Ports & interfaces

Connectivity technology	Wired
3.5 mm connector	Yes
Frequency response (music mode)	20 - 20000 Hz

Headphones

Ear coupling	Intraaural
Maximum input power	5 MW
Impedance	16 Ohm
Acoustic system	Closed
Driver unit	10 mm
Headphone sensitivity	105 dB
Driver type	Balanced + Dynamic
Number of drivers	2
Total Harmonic Distortion (THD)	3 %

Microphone

Microphone type	In-line
Microphone connectivity	3.5 mm

Packaging content

AC adapter included	No
