

Prokord T3CC-08

Data sheet

Core Specs

Cable length	0.8 m
Connector 1	Male
Connector 2	Male
Product colour	Black
Thunderbolt version	3
USB Power Delivery up to	100 W

Summary

- ✓ 40 Gbit/s transfer speeds move large files and backups quickly
- ✓ 100W Power Delivery charges laptops and peripherals fast
- ✓ Supports two displays for flexible dual-monitor workflows
- ✓ 0.8m male-to-male USB-C cable reduces desktop clutter
- ✓ Thunderbolt 3 compatibility ensures fast, versatile connections

Product description

Why choose this cable?

Prokord Thunderbolt 3 Certified delivers fast data throughput, video and power over a single connection. It helps reduce desk clutter and shortens transfer times when you move large files or connect high-performance storage. With up to 100W power delivery and support for two displays, it is useful for compact workstation and docking setups where reliability and simplicity matter.

Prokord Thunderbolt 3 Certified in short:

- 40 Gbit/s data rate, suited for large file transfers and high-speed external drives.
- USB Power Delivery up to 100W, so you can charge compatible laptops while using peripherals.
- Supports two displays when used with compatible Thunderbolt 3 hosts or docks.
- 0.8 m black USB-C male to USB-C male cable, good for close-range connections between laptop and dock.
- Note: the short 0.8 m length keeps cables tidy but may be too short for some layouts.

Prokord Thunderbolt 3 Certified

This Thunderbolt 3 cable connects USB-C ports that support the Thunderbolt 3 standard, carrying data, video and power in one link. Use it to attach a laptop to a dock, connect to fast external NVMe enclosures, or run dual monitors through a compatible host. The cable's compact length and subdued black finish make it practical for tidy desktop and mobile setups.
