Product description

VOXICON IR Eye – Infrared Receiver with 3.5 mm Plug

The VOXICON IR Eye is an external infrared receiver that allows remote control of compatible devices via a 3.5 mm IR input. Ideal as a replacement part or to complement AV installations, media boxes, displays, and conference systems.

This receiver is especially compatible with several Voxicon models, including the UXPAP and UHPAP series, but also works with other devices using a standard 3.5 mm IR port. Comes with double-sided tape for easy and discreet mounting.

Features:

- Infrared receiver with 3.5 mm plug
- Compatible with Voxicon models such as UXPAP and UHPAP
- Works with many IR-controlled devices
- Compact, sleek design with high sensitivity
- Includes double-sided tape for simple mounting

A versatile and reliable solution to restore or expand remote control functionality.
