Product description

Cirafon Privacy Filter 34" 21:9 Wide

Protect sensitive information

Cirafon Privacy Filter helps protect sensitive information by limiting the viewing angle of your display. Users positioned directly in front of the screen can view the content clearly, while visibility from the sides is significantly reduced.

The filter is compatible with both flat and curved monitors and also helps reduce glare. In addition, it protects the screen surface from scratches and fingerprints.

Key Features

- Fits 34" ultrawide monitors with a 21:9 aspect ratio
- Larger coverage area for extended protection
- Compatible with flat and curved monitors
- Privacy protection from side viewing
- Reduces glare and reflections
- Protects against scratches and fingerprints
- Includes adhesive strips and hanging tabs

Compatibility

THIS PRODUCT

Filter dimensions: 813 × 338 mm

This model provides a larger coverage area and is designed for monitors where the filter should cover both the visible display area and part of the front bezel/frame.

Compatible with both flat and curved 34" ultrawide monitors.

Choose the Right Filter

Two privacy filters are available for 34" ultrawide monitors with a 21:9 aspect ratio.

Measure your monitor and compare the dimensions below to select the correct model.

Important

This model provides a larger coverage area than the alternative model and may also cover part of the monitor's front bezel/frame.

Always verify your monitor dimensions before purchasing to ensure compatibility.
