

VESA Docking Station Holder – Universal Mounting Solution for Monitors

Data sheet

Summary

- ✓ Product type: Mount
- ✓ Panel mounting interface: 100 x 100, 75 x 75 mm

Product description

Prokord VESA Docking Station Holder – Universal Mounting Solution for Monitors

Prokord VESA Docking Station Holder is a smart, space-saving solution for mounting your docking station directly behind your monitor. It attaches easily to your screen’s VESA mount (75x75 mm or 100x100 mm), making it compatible with most modern monitors. The universal design supports a wide range of docking stations – ideal for both office and home setups.

Organize Your Workspace – Clean, Secure, and Efficient

Mounting the docking station behind the monitor frees up valuable desk space and reduces cable clutter. The Prokord holder is built to be both stable and discreet, making it an excellent choice for a more ergonomic and organized workspace. Perfect for IT environments, flexible offices, or remote work.
