

VESA Mounting For Barebone PC VESA 100X100

Data sheet

Summary

- ✓ Mounts Intel NUC barebone to standard 100 x 100 mm VESA plates, for use behind monitors or on wall mounts.
- ✓ Slim footprint, 255 mm wide by 120 mm high and 5 mm deep, keeps the unit compact and out of sight.
- ✓ Easy to install, screws included for a quick setup.
- ✓ Suitable for tidy workstations, kiosks, and digital signage where space and concealment matter.
- ✓ Purchase note: designed for Intel NUC form factor, check your barebone dimensions for compatibility.

Product description

Why choose this bracket?

Prokord VESA Mounting For Barebone PC VESA 100X100 gives you a secure, low-profile way to attach an Intel NUC to a 100 x 100 mm VESA plate. It saves desk space, improves cable routing, and keeps the barebone tucked behind a monitor or on a wall. Installation is straightforward and includes the necessary screws.

VESA Mounting For Barebone PC VESA 100X100 in short:

- Mounts Intel NUC barebone to standard 100 x 100 mm VESA plates, for use behind monitors or on wall mounts.

- Easy to install, screws included for a quick setup.
- Suitable for tidy workstations, kiosks, and digital signage where space and concealment matter.
- Purchase note: designed for Intel NUC form factor, check your barebone dimensions for compatibility.

Product details

The Prokord VESA Mounting For Barebone PC VESA 100X100 secures an Intel NUC to a VESA-compliant surface while keeping connections accessible. The bracket's 100 x 100 mm mounting interface works with monitor arms and wall plates. With included screws and a slim profile, the bracket makes it simple to mount the barebone behind a monitor or to a wall, reducing clutter and simplifying cable management.
