

7-Port USB 3.0 HUB with USB-C Power Input

Data sheet

Summary

- ✓ Seven ports: three USB-C and four USB-A for connecting external drives, peripherals, and mobile devices.
- ✓ 5 Gbit/s data transfer rate, suited for fast file transfers with external SSDs and backup drives.
- ✓ USB-C power input lets you provide additional power to connected devices and stabilise performance.
- ✓ Compact silver aluminium body and 0.3 m cable for a tidy, durable desktop setup.
- ✓ Includes a USB Type-C male - USB Type-A female adapter for broader host compatibility. Consider that high-power devices may need an external power source for sustained charging.

Product description

Why choose this USB hub?

Prokord 7-Port USB 3.0 HUB with USB-C Power Input gives you a simple way to expand a laptop or desktop with seven high-speed ports while keeping connected devices powered. It helps reduce cable clutter, maintain 5 Gbit/s transfer rates for external storage, and fits a desktop or mobile workspace thanks to its compact silver aluminium housing.

Prokord 7-Port USB 3.0 HUB with USB-C Power Input in short:

- Seven ports: three USB-C and four USB-A for connecting external drives, peripherals, and mobile devices.
- 5 Gbit/s data transfer rate, suited for fast file transfers with external SSDs and backup drives.
- USB-C power input lets you provide additional power to connected devices and stabilise performance.
- Compact silver aluminium body and 0.3 m cable for a tidy, durable desktop setup.
- Includes a USB Type-C male - USB Type-A female adapter for broader host compatibility. Consider that high-power devices may need an external power source for sustained charging.

Connectivity and everyday use

The hub connects to either USB-A or USB-C hosts and gives you both modern and legacy ports on a single device. Use the Type-C ports for newer peripherals and the Type-A ports for older accessories without changing cables. The USB-C power input lets you add external power when you have multiple high-draw devices attached, helping keep transfer speeds steady.

Design, setup and care

The aluminium housing is lightweight and resists wear, so the hub sits neatly on a desk or in a laptop bag. The short integrated cable reduces desk clutter and makes setup quick. It ships in a box with one unit and carries a three-year warranty, so you can plan deployments with a clear service expectation.

Technical Specification Matrix
