

7-Port USB 3.0 HUB with USB-C Power Input

Data sheet

Summary

- ✓ Seven USB-A 3.2 Gen 1 ports for connecting storage, input devices, and peripherals at up to 5 Gbps.
- ✓ USB-C power input (5V, 3A) for external power to support multiple devices.
- ✓ Integrated 30 cm 2-in-1 cable with both USB-A and USB-C connection options for flexible hosts.
- ✓ BC1.2 charging support, with up to 7.5 W per port for phones and small accessories.
- ✓ External USB charger required for full powered operation, sold separately.

Product description

Why choose this USB hub?

Prokord PK-PHUB31AC is a 7-port USB hub that expands connectivity for laptops, tablets, and desktops while keeping cable clutter to a minimum. It gives fast data transfer for external drives, stable charging for phones and accessories when paired with an external USB-C power source, and a compact metal design that fits easily into a workstation setup.

Prokord PK-PHUB31AC in short:

- Seven USB-A 3.2 Gen 1 ports for connecting storage, input devices, and peripherals at up to 5 Gbps.
- USB-C power input (5V, 3A) for external power to support multiple devices.
- Integrated 30 cm 2-in-1 cable with both USB-A and USB-C connection options for flexible hosts.
- BC1.2 charging support, with up to 7.5 W per port for phones and small accessories.
- External USB charger required for full powered operation, sold separately.

Everyday connectivity for work and IT

The Prokord PK-PHUB31AC turns a single USB port into a practical hub for everyday tasks. Use it to attach external drives, a keyboard and mouse, a webcam, and other peripherals without swapping cables. The slim metal enclosure keeps the hub stable on a desk and helps it blend into professional setups.

Power handling and cable convenience

A dedicated USB-C power input lets you add external power to maintain performance when multiple devices are connected. The integrated 30 cm cable includes both USB-A and USB-C connectors so you can plug into older and newer hosts without extra adapters. A power LED shows when the hub is active.

Compatibility and support

The hub works with Windows, macOS, Linux, Chrome OS, Android, and iPadOS devices that support USB host mode. It comes with a three year warranty for business use. Remember to provide an appropriate external USB-C charger if you need sustained charging or to power several devices at once.
