- ✓ Precise cutouts and raised camera and screen lips to protect lenses and display while maintaining full access to ports and buttons.
- ✓ Easy, tool-free installation, supplied in a box and backed by a two-year warranty.

Product description

Why choose this phone case?

Aegis Shockproof Phone Case (MIL-STD-810H Certified) Cirafon protects your Samsung Galaxy A56 from everyday impacts, dust, and scratches while keeping controls and ports accessible. Its dual-layer build combines a rigid polycarbonate back with flexible TPU edges to absorb shocks up to 1.5 m, and the fingerprint-resistant matte surface keeps the back panel looking clean.

Aegis Shockproof Phone Case (MIL-STD-810H Certified) in short:

- Dual-layer polycarbonate and TPU construction for reliable impact absorption and edge protection.
- MIL-STD-810H certified, rated for drops up to 1.5 m.
- Matte, fingerprint-resistant finish that also resists scratches and dust.
- Precise cutouts and raised camera and screen lips to protect lenses and display while maintaining full access to ports and buttons.
- Easy, tool-free installation, supplied in a box and backed by a two-year warranty.

Product details

The Aegis Shockproof Phone Case (MIL-STD-810H Certified) fits the Samsung Galaxy A56 in black and wraps the phone in a slim but sturdy shell. The hard PC back shields against scratches and impacts, while the TPU edges cushion corners and absorb shocks on contact. Cutouts are shaped to match the camera layout and front-facing elements, and the raised lips help prevent flat-surface contact for the display and lenses. The case is simple to apply and remove, comes packaged in a box, and includes a two-year warranty for long-term protection.
