- ✓ M6 x 30 mm (4 pcs)
- ✓ M8 x 35 mm (4 pcs)

Product description

PROKORD WALLMOUNT HEAVY-DUTY FIXED 37–86" 75KG

PROKORD Wallmount Heavy-Duty Fixed is a reliable wall mount designed for the secure installation of large TVs between 37 and 86 inches. The construction in powder-coated steel with a matte black finish provides high stability and long service life. With a low profile of only 36 mm, the TV is placed close to the wall for a discreet and professional look. The wall mount is suitable for both flat and curved screens and supports a load of up to 75 kg, with verified strength far above the stated max weight.

Function and compatibility

The wall mount supports VESA standards from 200x200 to 600x400 and is compatible with most TV models within the specified size range. The open design improves ventilation behind the TV and makes it easy to access connections and cabling. An integrated spirit level in the wall plate makes precise and level installation easier, while the detachable panel simplifies installation and handling. The bracket is intended for mounting on solid walls or double studs with stud spacing of 406, 450 or 600 mm.

Included screws and accessories

For mounting the TV, a selection of screws and spacers is included:

Screws

- M6 x 14 mm (4 pcs)
- M8 x 16 mm (4 pcs)
- M6 x 30 mm (4 pcs)
- M8 x 35 mm (4 pcs)

Spacers

- D8 (4 pcs)
- Ø15 × Ø8 × 5 mm (4 pcs)
- Ø15 × Ø8 × 15 mm (4 pcs)

Note that the included screws are not always compatible with all TV brands and models. Depending on the TV design, additional screws or spacers may be required to achieve correct and safe installation.

If needed, the Standard Screw Kit is recommended, as it contains a wide range of screws and spacers and is a practical supplement during installation.
