Product description

Cirafon André bag for portable monitor 16" , protection and mobility

Cirafon André is a specially developed bag designed to protect and transport portable monitors up to 16 inches. With a focus on mobility and safe handling, it is a perfect complement to modern workflows where extra screen space is used on the go.

The padded construction with reinforced sides provides effective protection against bumps and impacts, while the soft interior protects the screen from scratches during transport. The slim design makes the bag easy to carry or place inside a larger bag.

Benefits

- Developed for portable monitors up to 16"
- Protective padding with reinforced sides
- Soft interior that protects the screen
- Slim and lightweight design
- Integrated carry handle
- Outer pocket for cables and accessories
- Durable materials (PU / nylon)
- Easy to bring between office and home

Perfect for flexible workplaces

The bag is designed to meet the needs of users of portable monitors, whether you work at the office, at home or are travelling. It makes it easy to transport your screen safely between different workplaces.

Also works for laptop

In addition to portable monitors, the bag also fits laptops up to 16 inches, making it a flexible solution for those who want to use the same protection for several types of devices.
