

Wireless Qi2 Charger 15 W With Magnetic StandBlack

Data sheet

Summary

- ✓ Wireless Qi2 charging for compatible smartphones with up to 15 W
- ✓ Magnetic charging surface for secure and stable placement
- ✓ Integrated charging surface for wireless earphones
- ✓ Dedicated charging surface for smartwatch

Product description

Cirafon Qi2 Wireless Charger 15 W With Magnetic Stand

Magnetic Qi2 charging for modern smartphones

Cirafon Qi2 Wireless Charger 15 W With Magnetic Stand is a flexible and future-proof charging solution for smartphones that support Qi2. The magnetic attachment ensures correct positioning of the device and provides stable and efficient wireless charging, without the need for adjustment.

The Qi2 standard is based on magnetic alignment and is currently supported by both iPhone and newer Android phones, including Google Pixel models. The charger also works with MagSafe compatible cases and accessories.

Charge several devices on the same stand

- Wireless Qi2 charging for compatible smartphones with up to 15 W
- Magnetic charging surface for secure and stable placement
- Integrated charging surface for wireless earphones
- Dedicated charging surface for smartwatch

All charging is done via USB-C with support for QC and Power Delivery, which makes installation easy and minimizes cable clutter.

Adjustable stand for everyday use and work

The adjustable stand allows the phone to be charged both in portrait and landscape mode, which is ideal for video calls, notifications or standby mode. The stable base keeps the charger firmly in place and the discreet LED indicator shows charging status without being disturbing in dark environments.

The compact design makes it easy to place the charger on a desk, bedside table or in a home office.

Short summary

- Wireless Qi2 charger with magnetic alignment
- Up to 15 W wireless charging for Qi2 compatible smartphones
- Works with both iPhone and Android devices with Qi2
- Charges phone, earphones and smartwatch at the same time
- USB-C connection with support for QC and Power Delivery
