- ✓ Slim profile with matte, grippy surface
- ✓ Raised edges that protect the screen and camera lenses
- ✓ Precise fit with full access to buttons and ports
- ✓ Tailored for Samsung Galaxy S26 Black

Product description

Why choose this phone case?

Cirafon Aegis Series is a shock-resistant phone case developed for Samsung Galaxy S26 Black. The case combines military-grade drop protection according to MIL-STD-810H with a slim and discreet design. The result is reliable protection that minimizes the risk of everyday damage without compromising the phone's shape or functionality.

The matte surface resists fingerprints and provides a secure grip, while the construction protects against drops, scratches and daily wear.

Cirafon Aegis Series in brief

- Meets MIL-STD-810H and protects against drops up to 1.5 meters
- Hybrid construction in polycarbonate and TPU for effective shock absorption
- Slim profile with matte, grippy surface
- Raised edges that protect the screen and camera lenses
- Precise fit with full access to buttons and ports
- Tailored for Samsung Galaxy S26 Black
- Two-year warranty

Protection and materials

Cirafon Aegis Series is constructed with a durable outer shell in polycarbonate combined with a flexible inner layer in TPU. This hybrid construction absorbs and distributes impact forces from bumps and drops to reduce the risk of damage to the device.

The case is tested according to MIL-STD-810H and withstands drops from heights of up to 1.5 meters. Raised edges around the screen and camera provide extra protection when the phone is placed on flat surfaces, while the matte finish helps prevent scratches and fingerprints during daily use.

Fit and everyday use

The case is designed specifically for Samsung Galaxy S26 Black and fits precisely around the device's cutouts for camera, ports and buttons. The slim profile allows the phone to keep its sleek form factor and fit easily in pockets and bags.

The black, discreet design makes the case suitable for both professional and private use. Easy installation and removal make it practical for cleaning or changing accessories.
