

Prokord DPCC14C1505W

Data sheet

Core Specs

Cable length	0.5 m
Connector 1	C14
Connector 2	C15
Product colour	White

Summary

- ✓ 0.5m length reduces cable clutter behind servers and PCs
- ✓ C14 to C15 connectors ensure compatibility with common power inlets
- ✓ Copper conductors deliver stable conductivity for reliable power
- ✓ Straight male and female ends make insertion and removal simple

Product description

Why choose this power cable?

Prokord Power Cable is a 0.5 m C14 to C15 power lead that gives you a compact and reliable connection for short-distance power routing. The white finish blends with light-coloured equipment, and copper conductors deliver consistent electrical conductivity for everyday IT setups.

Prokord Power Cable in short:

- C14 (male) to C15 (female) connectors, both straight, for standard IEC power connections.
- 0.5 m length, ideal for close-range routing in racks, PDUs, or test benches.
- Copper conductor for stable power delivery.
- White colour for discreet integration with light equipment or office environments.
- Check that your devices use C14 and C15 couplers before ordering.

Product details

The Prokord Power Cable features straight C14 and C15 connectors on a flexible white jacket. At 0.5 m it keeps cable runs tidy and minimizes excess slack. Use it to link PDUs, servers, or other IEC-equipped devices where a short, reliable power connection is needed. The copper conductor supports consistent performance for everyday use.

Technical Specification Matrix

Header

Manufacturer	Prokord
--------------	---------

Features

Cable length	0.5 m
Connector 1	C14
Connector 1 gender	Male
Connector 1 form factor	Straight
Connector 2	C15
Connector 2 gender	Female
Connector 2 form factor	Straight
Product colour	White
Conductor material	Copper
