- Including award winning F-Secure anti-virus, firewall software (promotional software**).
- Two years manufacturers warranty.

Nowadays, most computers and notebooks are shipped without a floppy drive. However, the need for a floppy drive still exists; the old, trustworthy 3.5" floppy disk is still one of the most used media types in the world. Small files like drivers, software updates, patches for operating systems, anti-virus updates and boot-diskettes are still being shipped on floppy disks. Also, a lot of people still have old text files, spreadsheets, pictures etc saved on floppy disks. So there will always come a time when you need a floppy drive for a software update, to access some of your old data, or you need a diskette to quickly save a small file on. The new Freecom External USB Floppy Drive is all that you need. Affordable, easy to use, lightweight: very portable and very convenient. Installing the USB floppy drive could not be easier: Just plug it into the USB port of your computer and you're ready to go! The Freecom External USB Floppy Drive is also a very cost-effective replacement for when your existing floppy drive is broken. Powered through your USB port, this USB floppy drive gets you up and running in seconds. Keep it simple!
