Tablet PC guide

We offer a wide range of tablet PCs for all customer needs:

The ultimate mobile worker

With the STYLISTIC ST6012 Series you get the ultimate partner for mobile business. It's specially designed for working while standing or walking. It's light, thin and robust. Its brilliant display enables a convenient working on every location - indoor and outdoor. Customers all over the world like sales professionals, service technicians, surveyors, inspectors or doctors are persuaded of the natural pen interface.

The ultimate meeting tool

The LIFEBOOK T Series is designed as a convertible notebook in the tablet PC segment. The LIFEBOOK T5010, one of the lightest 13.3-inch convertibles at only 2 kg, represents ultimate technology in the areas of security, form factor and latest Intel® Centrino® 2 processor technology. The LIFEBOOK T1010 offers the most advanced tablet functionality featuring individual design aspects and dedicated software for students and children with an attractive price.

Getting bigger, staying small

The LIFEBOOK P1620 turns from a powerful notebook into a stylish tablet PC by rotating the display 180° in either direction. Weighing less than 1 kg, this ultra-light design gives you the freedom to work wherever you like. With Wi-Fi certified WLAN, Bluetooth, modem and optional embedded 3G/UMTS you have outstanding connectivity. The latest Intel® Centrino® processor technology guarantees both high performance and a long battery life, while security features such as an integrated fingerprint sensor and TPM protect your data on the move.

Enhanced mobility through accessories

Accessories from AC adapter over memory modules to SmartCard technology are available for the regions Power, Storage and Mobile Enhancement.
