003R96928	195	A4 - 1000 sheets - 6 up
003R95166	195	A4 - 100 sheets - 6 up

Premium NeverTear Strength and Durability

Premium NeverTear – A great solution for durable documents...

Premium NeverTear is a highly developed, printable media made of bright white polyester. It is perfectly optimised for both colour and mono printing. The smooth, matt surface enables a vibrant image and excellent toner bonding.

Premium NeverTear has a value-added look and feel for the production of durable prints that get handled frequently.

Premium NeverTear is water, oil and grease resistant. The thinner versions have a soft, smooth feel whilst the thicker versions have an impressive rigidity. All thicknesses are suitable for offset printing prior to applying digital print.

Premium NeverTear achieves strength and durability without the use of lamination saving both time and money.

Premium NeverTear gives printing businesses the perfect opportunity to move smaller quantities of synthetic prints from offset to digital – with no set up costs or proofing. And now every print can be different.

... and durable items too!

If you have the appropriate printer duplex is possible. Premium NeverTear is tear resistant, and can be die cut and finished for many applications.

Documents that look better and last longer...
