NOTES:

¹ A standard GSM/GPRS/EDGE/UMTS/HSPA infrastructure, Wi-Fi network access, other Bluetooth-enabled devices, separately purchased equipment, and a service contract with a wireless service provider may be required for applicable wireless communication. Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. Normal GSM Data Calls (CSD) are not basic GSM data services. These services may not be available via all service providers, and may require separate subscription. Establishment and continuation of a wireless connection depends on network availability, provider support and signal strength. Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Not all features and service options are available in all areas.

² Telephone service requires separately purchased contract with a telephone service provider with coverage in your service area. Additional fees may apply for some features, check with service provider.

³ Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Restrictions and limitations apply. For details, visit www.hp.com/go/carepack.
