

HandlePlus 334gsm

simple mobile phone with alarm functions

-  4 memory buttons with name index
-  one-touch emergency calls & SMS alerts
-  easy to read display

Stay in touch anywhere with this extremely easy to handle mobile phone. With one press of a button you can answer incoming calls, dial any of 4 programmed numbers, place a call to emergency services or activate alert dialling and SMS to your 4 contacts. The display makes it easy to store and view names and numbers, as well as to monitor battery and keylock status.
