

DJI FPV

Shutter Collection

What's Included

SHUTTER COLLECTION

Filters (ND8 | ND16 | ND32) | Magnetic Case | Microfiber Cloth

Installation

Step 1

Make sure the FPV lens is clean and clear of debris before installation.

Step 2

Install the filter before powering-on the drone.

(If calibrating the gimbal, be sure to install the filter after calibration is complete.)

Step 3

Press the filter onto the FPV lens with the "P" logomark facing upwards.
