

PRODUCT INFORMATION

Stylish desk luminaire with built-in Qi charger in the base that enables easy and smart charging phones that support wireless charging. Perfect for the office workplace or home office.

The luminaire is easy to dim due to the smart touch buttons with clear symbols. Similarly, the color temperature is adjusted in four levels, from warm white to cold white light. The low power consumption of 5W provides an environmentally adapted luminaire, and there is also automatic switch-off timer in the base for both one and two hours of lighting.

The luminaire is connected to a wall socket with the supplied adapter, or to the computer's USB socket. The phone is charged without interruption even when the lighting is off. The adapter and cord can also be used to charge phones or other products.

With high and carefully selected quality details such as Samsung LED components, material choices such as aluminum and ABS plastic, a product with the highest quality and longevity is ensured.

SPECIFIKATIONER
