

Features

Powerful & secure performance

The ThinkSmart Core computing device is powered by 11th Gen Intel® Core™ vPro® processors with Intel® Iris® Xe graphics for optimized business productivity and collaboration. It comes certified for and preloaded with Microsoft Teams Rooms—perfect for employees to connect, share, and collaborate seamlessly and securely. Plus, it runs on trusted Windows 10 IoT Enterprise SAC OS.

Collaborate face-to-face

The ThinkSmart Controller boasts a 10.1" HD anti-glare, anti-smudge display with a 10-point touchscreen. With the easy-to-use Microsoft Teams interface, it's simple to initiate and control meetings, share content, and collaborate—no matter where remote colleagues are located. Engineered for convenience, the design features two viewing angles, integrated IR sensors that detect presence in the room and automatically turn the system on/off, and USB-C connectivity.

Easy to manage

With ThinkSmart Manager software, IT teams can easily deploy, monitor, manage, and troubleshoot all of your organization's ThinkSmart devices remotely. This custom-built manageability console is subscription-based and, as part of the kit, includes one year of Premium level. After a year, you have the option of subscribing to either Basic or Premium to continue the management service.

Security matters

ThinkSmart Core includes ThinkShield, our built-in suite of security solutions to protect your device and your data. Additionally, the Intel vPro® platform provides the world's most comprehensive hardware-based security for business. Plus, both the Core and the Controller include the Kensington MiniSaver lock slots to physically secure the devices.

Fits anywhere

With integrated cable management and VESA mounts, the ThinkSmart Core and ThinkSmart Controller looks great anywhere.
