6

6. Product Specification:

Bluetooth Version	V5.0
Chipset Solution	CSR8615
Operation Frequency	2.402GHz-2.480GHz
Standby Time	About 350 h
Music Time	About 24 h
Charging Time	About 2 h
Bluetooth Profile	A2DP1.2, AVRCP1.0, HFP 1.6, HSP 1.2
Multi Point Connection	Support connection with two phones
Password for Connection	0000, 1111, 1234, 8888
MIC Specification	-45dB/4015/ Single point
Battery Capacity	400mAH Rechargeable lithium battery
Charger	5VDC,100-240V AC adapter, ≥500MA
Work Temperature	-10—55°C
Net Weight	About 135g
Size	166mm*159 mm*65 mm

7

8. Attention and Q & A:

Q. Multi point connection

A: Could only play music from one phone for multi point connection, need to stop one to play another .

Q. Automatic power off

A: VXBTX9 will automatic power off when unconnected with any devices in 30 minutes.

Q. How to reconnect?

A: VXBTX9 will reconnect automatic with the paired devices when power on. Pls pairing and connect the item if it could not reconnect automatic.

Q. How to delete the paired records?

A: At any mode, long press MFB and Mute button together 5 seconds to delete the paired records, with Red & Blue LED flash twice at the same time.

Q. Password for connect?

A: Pls try 0000 (four zero) , 8888 (four eight) , 1111 (four one), 1234 (one two three four) as password for connection when need for some devices.

Q. Charging power supply?

A: Charging power supply: 5V, ≥500 mA. (Charger, car charger, computer USB etc.)

8

Q. What is the advantage of using single-point microphone?

A: Using a single-point microphone can effectively reduce the ambient noise so that the other party can clearly hear your own voice and improve the quality of the call. The call effect is far superior to that of an ordinary omnidirectional microphone (a structure with a microphone bar is required, otherwise the speaking voice will be smaller).
