

# Sony Ericsson W205 Walkman™ phone

## A first Walkman™ phone...

The W205 Walkman™ phone is a hassle free and simple way to experience music on the go and to get the most out of your music tracks and radio. With Sony Ericsson's Walkman™ music heritage, it is the best music phone experience available at an affordable price.

This slider mobile phone is an ideal first Walkman™ phone to enjoy the best Sony Ericsson mobile phone technology and a host of other fantastic entertainment experiences.

## Quality music on the move...

Thanks to the integrated FM radio, it is easy to stay in touch and keep in tune with the latest music, news and sport while on the move. The W205 can even record tunes from the radio, which can then be converted into a ringtone.

The W205 is also a personal DJ – it can set up multiple playlists to ensure the right music for the right occasion, and allows you to share the music that you love with friends via the speaker phone function. With 13 hours of music playback, the W205 keeps the party going all night.

## Snap or film each second...

When the music stops, the fun does not have to as the W205 comes with a 1.3 megapixel camera with video recording capabilities. You can easily capture any moment on video and share it with friends anytime via MMS or Bluetooth™.

## A phone that is made for sharing...

The W205 features a clever multiple phonebook that allows up to four users to create their own personalised book of contacts, so you can make the phone your own and share it with others at the same time.

By keeping phone lists separate, friends and family can share the W205 and with up to nine hours of talk time, everyone will have something to say.

## Music encyclopaedia...

It can so be frustrating to hear a song but not be able to remember what it is called, or who sings it. Amazingly, with its clever Track ID™ function, the W205 can name that tune from only a small sample of the track.

## Sounds like fun...

The ultra-compact powerful Snap-on Speakers MS410 will add the wow factor to all entertainment, making music tracks sound like they are being played live. The MS410 simply snaps onto the W205 to share the fun and get any party started.

The MS410 also features an integrated FM radio antenna to easily find a radio station – meaning you can just sit back, relax and let someone else pick the tunes.
