

Touch Pro

Black

Smart lock with fingerprint scanner, code function and key tag. The touch panel lights up for easy visibility. Includes mortise with hook bolt for increased security, works on both right and left hinged Scandinavian-style doors. Built-in RFID reader for key tags. Emergency key for mechanical opening. App control of the lock using an existing compatible smart home system, requires our **Connect Module** (sold separately). App control using the **nimly connect** application requires both our **Connect Module** and **Connect Gateway** (sold separately).
