All MTR and peripherals can be managed by AudioCodes unique device manager management console

The AudioCodes RXVCam10 is a personal webcam ideally suited to today's dynamic and collaborative workplaces. Its real-time video brings meetings to life, ensuring that every participant can see and be seen with outstanding clarity. The RXVCam10 perfectly complements the uncompromising quality assured by AudioCodes' unified communications (UC) solutions, ensuring seamless integration into the One Voice portfolio.

The AudioCodes RXVCam10 enables high-quality video through any computer. It supports 1080p Full HD real-time video through a 2 megapixel CMOS sensor for exceptionally sharp images in any situation, from direct sunlight to low light levels. Its 3x digital magnification function provides a completely adjustable field of view.
