

RXV81 **A cost-effective collaboration bar**

The AudioCodes RXV81 is a standalone Microsoft Teams Rooms on Android™ (MTR) video bar that takes plug-and-play simplicity to another level, resulting in a familiar and exceptionally productive Microsoft Teams meeting experience

- **HD audio with a powerful six mic pickup and excellent speaker reach**
- **4K HD video with ePTZ support and 5x zoom**
- **One click join and full calendar on the screen**
- **Android-based soon-to-be Android 12**
- **Quick and easy to deploy**
- **Can be used on an ad hoc basis as a USB A/V peripheral for any UC client**
- **Very competitive price**

With its stylish design and fast setup, the RXV81 is ideal for huddle rooms and small shared rooms, as well as for managers' and executives' personal offices. Straightforward mounting and minimal cable connections make deployment hassle-free.

MSRP 123456
PART # 123456

All MTR and peripherals can be managed by AudioCodes unique device manager management console
