

### Overview

The HP 10GbE MII Management Enablement Kit consists of a small PCB and a flexible cable with connectors for use on select 10GbE server adapters to provide sideband management support over a 10GbE connection. This is sometimes called "in band" iLO sideband support. By allowing management packets to be transmitted and received on the Ethernet ports of the NIC, the MEK eliminates the need for separate, dedicated cables for management. The MII (Media Independent Interface) MEK is used on servers that have a 24 pin MII connector.

MII MEK, with PCB

### Models

HP 10GbE MII Management Enablement Kit

509778-B21

### Kit Contents

- HP 10GbE RMII Management Enablement Kit (MEK)
- PAL PCB
- Quick install instructions
- Product warranty statement

### Compatibility

#### Servers

**NOTE:** The 10GbE MII MEK is used with 10GbE adapters installed in the following ProLiant servers:

#### ProLiant DL (rack-optimized):

- HP ProLiant DL320 G6
- HP ProLiant DL360 G6
- HP ProLiant DL370 G6

#### ProLiant ML (expansion-optimized):

- HP ProLiant ML350 G6
- HP ProLiant ML370 G6

**NOTE:** This is a list of supported servers. Some may be discontinued.

### Warranty

**Maximum:** The remaining warranty of the HP product in which it is installed (to a maximum three-year, limited warranty).

**Minimum:** One year limited warranty.

Additional information regarding worldwide limited warranty and technical support is available at:

### Service and Support

#### Service and Support

#### **HP Care Pack Services: Packaged server and storage services for increased uptime, productivity and ROI**

When you buy HP server and storage products and solutions, it's also a good time to think about what levels of support you may need. Our portfolio of service options reduce deployment and management worries while helping you get the most out of your server and storage investments. We take a holistic approach to your environment, bridging servers, blades, storage, software and network infrastructures with our packaged HP Care Pack Services for servers and storage.

#### **Protect your business beyond warranty**

When it comes to robustness and reliability, standard computing equipment warranties have matured along with technology. Good news that can also create problems stemming from depending on standard warranties designed to only protect against product defects and some downtime causes. Using a standard approach to warranty uplifts, such as HP Care Pack Services, helps reduce downtime risks and provides operational consistency for mission-critical and standard business computing.

#### **HP Care Pack Services: Upgrading or extending standard server and storage warranties cost effectively**

HP Care Pack Services offer a standard reactive hardware and software support services suite sold separately, or combined with our Support Plus and Support Plus 24 services. The portfolio also provides a combination of integrated proactive and reactive services, such as Proactive 24 Service and Critical Service. In addition with HP Proactive Select, you can acquire the specific proactive constancy and technical services. HP Proactive Select menu offers a broad set of service options that you can mix and match depending on your specific requirements. Proactive service options include offers for server, storage, network, SAN device, software, environment and education services.

HP server and storage lifecycle support services offers a full spectrum of customer care-from technology support to complex migrations to complete managed services. HP Factory Express provides customization, integration and deployment services for turnkey solutions. HP Education Services offer flexible, comprehensive training on to help your IT staff get the most out of your server and storage investments. HP Financial solutions extend innovative financing and cost-effective asset management programs-from purchase to equipment retirement.
